TWO MEN GIVE FIFTY CENTS EACH FOR RIDES YEARS AGO

FINDLAY, O., Nov. 11.—Philosophers for centuries have attempted to analyze the conscience of the human race and what prompts it, but have been unsuccessful. That such a thing does really exist, Charles F. Smith, general manager of the Toledo, Bowling Green and Southern railway, can now testify.

Recently he was sitting in his office when two men walked in and each threw a fifty-cent piece on his desk, explaining that, twenty years ago, they had ridden from the north side to the Tangent depot without paying a fare. That was because they were compelled to stand most of the way.

During all this time their consciences, they said, had troubled them and they got no rest until they had returned the money, with interest.

### FINANCIAL.

NEW YORK, Nov. 11.—Revival of peace rumors, echoes of the campaign and reports of over production in certain lines of industry, notably the automobile trade, probably accounted in varying degree for the irregular and at times unsettled tone of today's market.

Speculative issues, including central leather, industrial alcohol and less seasoned industrials and equipments were pressed for sale by the professional element with Mexicans, the latter yielding on advices suggesting fresh disturbances across the southern border.

Credit States Steel was again the most active stock, making an extreme loss of one-half point, regaining less than half. Rails were consistently heavy investment issues as represented by the Union Pacific and Reading losing more than a point.

Coppers were the mainstay of the market, particularly Tish and a new record, China and Ray coppers also telling at new top prices. Metals were at their best in the later dealings and served to effect partial rallies elsewhere. Total sales of stocks approximated 900,000 shares.

Bonds were irregular on limited dealings. Total sales par value amounted to \$1,975,000.

### DUN'S REVIEW.

(Special to The Telegram)  
NEW YORK, Nov. 11.—Review in its issue today has this to say regarding trade conditions.

All measures of business reflect the holiday interruption, and in some branches an undercurrent of hesitancy is manifest because of the phenomenal rise in prices. Such instances remain the exception, however, and in many cases the rapidly advancing costs, with prospects of still higher levels, act as a stimulus to even larger purchasing. This remarkable condition is strikingly apparent in the leading industries, and the unparalleled output last month was particularly opportune, in view of the recent great expansion in new buying. Production everywhere is expected to lessen as winter draws nearer and transportation difficulties are intensified, and the fuel scarcity, which is due primarily to car shortages, now affects operations at plants where reserve supplies are not available. Manufacturers in widely divergent lines and sections, being hampered in various ways, continue behind on shipments and are increasingly reluctant to commit themselves to definite dates on delivery, even when buyers are willing to pay premiums to make provision for distant requirements.

The discrepancy between the contracts offered and those actually closed consequently widening, and the depleted condition of merchandise stocks is becoming more pronounced in wholesale and retail channels. Final distribution is remarkably broad and active, though in some quarters purchases of seasonal apparel are held in check by the weather, and the magnitude of business generally is reflected in bank clearings and other statistical barometers.

Gross earnings of railroads making weekly returns for October show a gain of 13.0 per cent over 1915, when the revenues were record breaking for the period.

Nebraska Man Loses His Job after a Stubborn Fight to Hold It.
